TANDBERG

8000 MXP

For the boardroom. Sleek, elegant design combined with state-of-the-art engineering. 50" plasma screens and a best-in-class audio system provide the ultimate video experience.

- Dual 50" plasma monitors with 16:9 widescreen format
- Join up to 6 video and 5 audio sites with embedded MultiSite functionality
- Bandwidth: Up to 4 Mbps IP (6 Mbps in MultiSite) / 2 Mbps ISDN

TANDBERG

7000 MXP

For the boardroom and executive conference room. Shares the performance features of the TANDBERG 8000, but with a smaller profile.

- Dual 30" LCD monitors with 16:9 high resolution format
- Join up to 6 video and 5 audio sites with embedded MultiSite functionality
- Bandwidth: Up to 4 Mbps IP (6 Mbps in MultiSite) / 2 Mbps ISDN

TANDBERG

6000 MXP

For medium- to large-sized meeting rooms. High-end performance features, large monitors and precision audio create a collaborative meeting environment for even the largest groups.

- Single or dual monitors (32" NTSC or 33" PAL)
- Join up to 6 video and 5 audio sites with embedded MultiSite functionality
- Bandwidth: Up to 4 Mbps IP (6 Mbps in MultiSite) / 2 Mbps ISDN

TANDBERG

3000 MXP

For medium- to large-sized meeting rooms. A complete video system in a compact package. With a specially designed cart, this versatile unit can be moved to wherever you need it most.

- Single or dual monitors (27" NTSC or 29" PAL)
- Join up to 4 video and 3 audio sites with embedded MultiSite functionality
- Bandwidth: Up to 2 Mbps IP / 512 ISDN

TANDBERG

990 MXP

For medium- to small-sized meeting rooms, and shared office environments. Provides high bandwidth capabilities for excellent quality point-to-point and multipoint calls in a flexible set-top system.

- Elegantly designed all-in-one set-top unit that fits easily on any standard television monitor
- Join up to 4 video sites and 3 audio site with embedded MultiSite functionality
- Bandwidth: Up to 2 Mbps IP / 512 kbps ISDN (opt.)

TANDBERG

880 MXP

For medium- to small-sized meeting rooms as well as shared office environments. Incorporates the features and functions of larger systems in a portable, high performance set-top unit.

- Elegantly designed all-in-one set-top unit that fits easily on any standard television monitor
- Join up to 4 video sites and 3 audio site with embedded MultiSite functionality
- Bandwidth: Up to 1152 kbps IP / 384 kbps ISDN (opt.)

TANDBERG

770 MXP

For offices and small meeting rooms. This compact unit conveniently transforms any standard TV into an interactive meeting place, providing users with an outstanding business tool.

- Elegantly designed all-in-one set-top unit that fits easily on any standard television monitor
- Bandwidth: Up to 768 kbps IP / 128 kbps ISDN (opt.)

TANDBERG

550

For offices and small meeting rooms. Provides essential video features for face-to-face meetings with the quality and reliability found in all TANDBERG equipment.

- Compact set-top can be used with any standard television set
- Bandwidth: Up to 768 kbps IP / 128 kbps ISDN (opt.)
- Video telephony version available for Cisco® CallManager 4.0

TANDBERG

1000

For executive offices and small meeting rooms. Fully integrated system delivers style and performance in equal measure.

- Includes camera, 12.1" LCD screen, speakers, cable and microphones
- Bandwidth: Up to 768 kbps IP / 384 kbps ISDN (opt.)
- Video telephony version available for Cisco® CallManager 4.0

TANDBERG

Director*

Rich media presentation tool for corporate, military and education applications. The Director turns an interactive whiteboard and video system into a powerful tool.

- 67" display with on-screen controls
- Join up to 4 video sites and 1 audio site with embedded MultiSite functionality
- Bandwidth: Up to 3 Mbps IP / 2 Mbps ISDN

TANDBERG

Maestro

For medium to large-sized meeting rooms. Built on the TANDBERG 6000 MXP codec, the Maestro turns existing monitors and displays into interactive video systems.

- Leverages existing large screen displays or projectors
- Join up to 6 video sites and 5 audio sites with embedded MultiSite functionality
- Bandwidth: Up to 4 Mbps IP (6 Mbps in MultiSite) / 2 Mbps ISDN

INTEGRATOR ADVANTAGES

Through close collaboration with systems integrators, TANDBERG offers advanced, integration-ready video solutions, including rack-mountable codecs and portable systems that are easy to install and easy to operate. Adhering to technology standards ensures TANDBERG will remain the integrator's choice for visual communications.

Product Portfolio

TANDBERG

Education Series*

The TANDBERG Education Series offers options for corporate training, classrooms and higher education.

- Multiple education products to meet specific application needs and room sizes
- Designed with input from educators to meet the demands of the education environment

TANDBERG

Healthcare Series*

Video systems designed for healthcare applications including consultations, clinical studies and CME. Connect healthcare professionals and patients across the globe.

- Multiple healthcare products available to meet specific application needs and room sizes
- Add peripheral medical and non-medical devices
- Dual monitors for viewing clinical and non-clinical images

TANDBERG

Tactical II*

The TANDBERG Tactical II is ideal for field use by federal, state, local and civilian personnel. Its heavy-duty case makes it easy to transport and use for crisis management, mobile offices or anywhere field communications are needed.

- Fully integrated video system in a heavy-duty water-tight case with twin wheels and retractable handle
- Ability to integrate Type 1 encryption devices
- Bandwidth: Up to 768 kbps IP / 384 kbps ISDN

TANDBERG

Judicial Series*

Video systems designed to specifically meet the needs of judicial applications including video arraignment, video visitation and remote testimony.

- Multiple judicial products to meet specific application needs
- Intuitive controls for fully interactive video proceedings
- Durable video package for communication to and from prisons and jails
- Simple video visitation solution for easy administration of correctional visitations

TANDBERG

Management Suite

A web-based application for administrators, the TANDBERG Management Suite (TMS) streamlines the management, maintenance and scheduling of an entire video network.

- Intuitive user interface with graphics
- Detailed system-by-system and conference-by-conference details
- Manages endpoints and infrastructure directly
- Multiple vendor support

TANDBERG

Scheduler

An intuitive, web-based scheduling tool for anyone in the organization. Three quick, point-and-click steps simplify scheduling and increase usage.

- For use with an unlimited number of users on a video network
- Schedule video, audio, web and data conferences
- Schedule multiple meetings simultaneously
- Intuitive interface available in 15 languages

TANDBERG TANDBERG

Multipoint Control Unit

Easily deployable and scalable, the TANDBERG Multipoint Control Unit (MCU) is designed specifically for the enterprise.

- Compact size: 1U tall and 19" rack mountable
- Join up to 16 video and 16 audio sites
- Bandwidth: 56 kbps – 2 Mbps on choice of network (IP, ISDN, V.35)

TANDBERG

Gateway

A gateway that offers unparalleled simplicity. Provides seamless integration between IP and ISDN networks with complete feature transparency and protection from network interruptions.

- Compact size: 1U tall and 19" rack mountable
- Provides seamless integration between packet-based network services (i.e. IP) and ISDN
- Complete Multipoint Transparency including chair control
- Bandwidth per call: 56 kbps – 2 Mbps

TANDBERG

Gatekeeper

The TANDBERG Gatekeeper is a high-performance, reliable, secure, and easy-to-use gatekeeper designed to complement TANDBERG's infrastructure solutions.

- Compact size: 1U tall and 19" rack mountable
- Secure management and lock-down support
- Embedded setup wizard for easy installation
- Direct call signaling
- Scalable up from 25 to 200 concurrent calls

TANDBERG

Media Processing System

The TANDBERG Media Processing System (MPS) is a reliable, scalable multipoint control unit. Low life cycle costs and feature-rich support for video endpoints.

- 19" rack mountable chassis
- Modular and expandable with multiple media processing boards and network interface boards
- Join up to 48 video sites and 48 audio sites
- Bandwidth: 56 kbps – 2 Mbps on choice of network (IP, ISDN, V.35)
